

Family Fun UN-FEST 2021

May 6th – May 16th 11 Days of Virtual Discovery

in conjunction with REMAKE LEARNING DAYS
NORTHWESTERN PA

Activity: *Nature Art*

Learning Theme(s):

Provided by: Commonwealth Charter Academy

Supplies and Instructions

SUPPLIES

The supply list can be as short or as long as you want! Anyone can do it! You will just need to find things in nature:

- twigs
- rocks
- leaves
- flower petals
- acorns
- seashells
- flowers(s)
- glue (possibly)

If you can create it in your mind you can make it with nature art!

Instructions

Pick a topic or idea of something you would like to make out of art. Determine which items will make up the different parts of your creation and once again the sky is the limit:) So, for instance, you would like to make a smiling stick figure. You can use twigs for the arms and legs, a leaf for the head and acorns or rocks for the mouth, eyes, and nose.

For a more advance example think of a pattern or shape with reoccurring materials of shapes and patterns.
